Compliments of the Honor Society

That night was a 'free' night, and the class scattered to the four winds, each to his or her own pursuits. It would be impossible to describe all that these entailed, so no attempt will be made here. The next morning found us early at Mount Vernon, and by the time we had visited President Kennedy's grave, gazed in awe at the Marine Corps Memorial, and solemnly viewed the changing of the guard at the tomb of the Unknown Soldier, it was time for a hearty lunch back at the Hotel. Immediately after, with much determination and perspiration, we ascended the Washington Monument, and spent the rest of the afternoon in recuperation by strolling through the massive Smithsonian Institute.

The evening found us once again in the bus headed for the Wax Museum; the National Archives; the lighted Memorials; and almost, though the notion was abandoned at the last moment, the airport. The remaining fragments of the night were handed over to individual discretion. However, one fortunate Pizzeria must have thought that they were conducting an unannounced tour, for over half of the class eventually ended up there.

It was a good thing that we were allowed to take it easy on Saturday morning, because the ones who felt like doing anything were in the pitiful minority. Although our spirits were somewhat saddened by our leaving the Hotel for the last time at 11:30 that morning, they returned to their normal cheerfulness through the visit to the awe-inspiring Washington Cathedral, and the beautiful rolling countryside where the blood-steeped Battle of Gettysburg was fought a century ago. As the rising sun cheered us on the first day of our trip, so the gorgeous sunset on that last day confirmed the fact that our joyous excursion was nearly over, for all good things must come to an end.

I don't think that a certain member of our class will soon forget being carried up the Washington Monument by five of his class mates. Nor will we forget the expression of glee on our faces in the picture in front of the Capitol as we said, "uh-(click)-eeeeee!"

Senior Trip

Five o'clock in the morning is just too early to start anything. That is, almost anything. For the senior class trip is a definite exception. In fact, this trip was an exception to more rules than just this one! But, looking back over it now, the memories that stick with us are happy ones. From that time on, whenever cathedrals or memorials, Annapolis or Gettysburg, the FBI or Archives, half-houses or lost keys, mud puddles or guides named Dave, shaving cream or short-sheeted beds, dismantled bombs or Army surplus helmets are mentioned, the members of this class have smiled knowingly among themselves as the memories flooded back into their minds.

"I almost wish that our trip wasn't starting," remarked one girl, as the bus rocked and rolled on its merry way toward Philadelphia, "because it is already beginning to end." (A thoughtful and sobering reflection.) Nevertheless, the general mood was one of eager anticipation as the goal of these four years of perseverance and work loomed before us. Nor were we disappointed in our expectations.

After a refreshing first day spent reaching Washington via Independence Hall and Annapolis Naval Academy, we were all too keyed up to sleep much, so most of us didn't. The reflection that perhaps we should have devoted more time to sleep came to us at six o'clock the next morning as we were summoned to begin serious touring. We started at eight o'clock on a series of whirlwind tours that took us from the Treasury Department and the Jefferson Memorial, to the Chamber of Commerce (with its fascinating fishes) and the FBI headquarters, and finally through the White House before lunch. The sun came out brightly in the afternoon and presented an opportune time for us to gather our mud-spattered selves in front of the Capitol for a photograph. And then we were off again—through the Capitol, a Franciscan monastery, and the Shrine of the Immaculate Conception, and back to the Hotel Annapolis.

Class History

In September of 1962 we started our last four years of school with Mr. Camorani and Miss Hopsicker as class advisors. Our first activity was a roast beef supper which turned out to be a great success. In our sophomore year under the supervision of Mr. Scheuren and Miss Hopsicker, the first of our two activities was a Valentine's Day dance, which could have been more successful. But the most important thing was that we had fun. Since the roast beef supper the preceeding year had been so profitable, a sequel was produced, and this was also a success.

Mr. Scheuren took charge of us for our junior year. We ordered our rings, which we received before the Thanksgiving vacation. For our first activity we had a turkey supper. Then, on April 2, in keeping with the junior tradition, we put on our play, "Man Overboard." Mr. Scheuren was the director, and we really enjoyed preparing for it. At times we doubted that it would go off; but it did, and we were convinced by the many compliments we received, that ours was the best in years.

In three days we were planning for our prom, "Wonderland by Night." It took many hours of hard work, but, when the evening of May 21 came, everything looked great! Don Vannatta was crowned king and Sally Hawker queen.

Our senior year approached in no time, and we found that we had to have another activity in order for all thirty two of us to get to Washington. We had the school's first Chicken Bar-B-Que, and the greatest it will ever see. We talked and talked about going to Wash. until October 13, 1965 finally came. And then we spent four great (but short) days doing everything but sleeping in our country's capital, Washington, D. C.

Now as graduation approaches we look back over the past four years and wonder how we ever made it!

Graduating Seniors

With your graduation in June 1966, the easiest, most carefree days of your life are at an end. Although the adolescent problems you faced may have seemed unsurmountable, they will appear insignificant alongside of your new, adult and life shaping tasks.

Many of the decisions you will have to make will have no simple right or wrong answer. There are many alternatives: make the very best of your choice.
