ROBERT DEPASQUALE

CHARLES HUEBNER (Karyn)

12709 Franklin Farm Rd.  
Herndon, Va. 22071

Ph: 703-476-8675

Charlie reports the following: I went to S.U.N.Y. at Morrisville where I received an A.A.S. in Instrument Technology. In Aug. 1964 I joined the U.S. Navy and was commissioned an Ensign while flying in the rear seat of F-4's. I decided to get back on the ground so I went into intelligence work and was finally given a chance to live in South Vietnam for a while. During that time I returned to Hawaii where Karyn met me and we were married at Pearl Harbor. I returned to the states 6 months later and we moved to Washington D.C. where I finished up my Navy tour. I looked around for colleges to attend and found California (my wife's home state) was economically and academically appealing, especially after New York (Albany).

didn't bother answering me for a long time. I ended up attending Calif. State Univ. at Hayward, CA. where I graduated in 1972 with a B.S. in Bus. Admin. While I was going to school I decided the student life was too much for me so I joined the Police Dept. in Hayward to gain a little experience as a street cop. In my first month there I did uncover work as a dissident student and watched the overtaking of the administration building at CalState by anti-Vietnam demonstrators. Not only did I end up on the front page of the local papers carrying my placard, but some woman wrote to the police dept. and swore I was the Zodiac Killer. They did wonder about my background. I started graduate school in Criminal Justice at Cal State San Jose but in June of 1976 I was offered a position with the U.S. Secret Service in Portland, Oregon. Karyn and I were ready to get out of the San Francisco area and federal law enforcement was my dream. Consequently we moved to Oregon where I worked as a Special Agent in the field office there. In the 1980 Presidential campaign I was on the Reagan detail for the year, which proved to be very interesting. In Nov. 1980 I received my orders to Washington D.C. field office but due to poor luck and a bad market, we couldn't move here until August.

I am extremely sorry I could not join you in this reunion as I was looking forward to it. But having just arrived here and not only moving into a new house, getting the family situated, and etc., Sept. and Oct. are the busiest months for the Secret Service in the Washington area. I have not seen but a very small few of you over the years. I guess Frank is the only one I have seen for any time at all....I do hope to see more of you now that I'm back on the East Coast. Perhaps we can get together for the 25th reunion. Again, I regret not being able to attend. My telephone number and address are on the front if anyone would like to get in touch"

My feelings toward the class of 1961 are compounded of admiration, affection, respect, gratitude, pride, solicitude, interest, hope, and responsibility.

True, at times there have been traces of frustration, dismay, and consternation, but these have passed quickly, leaving no scars.

I wish you well--each and all of you. May you do credit to your parents, your school, and your community.

I feel that you will.

I have finally **RETIRED** from Law Enforcement (6 years Hayward Police Department, 25 years Secret Service, and 9 years NASA Inspector General's Office, Criminal Investigations Division) I am enjoying a life of increased procrastination and wondering how I ever was able to work and get things done at home.

Course being tagged for volunteer work as property manager at church and tending to the grapes and winemaking (mentor for the latter) keeps me going in different directions.

**Our Next Generation:**

Daughter Tara still works as a Physical Therapy Assistant at a hospital south of San Francisco but has decided to move out our way where house prices are much more reasonable although her wages will probably drop. To buy a home between San Francisco and San Jose your looking \$800,000.+!

Tara and Steve belong to the Never Married Group!

Sorry we will not make the reunion this year but we just got back from traveling several countries and will be making the trip back after Thanksgiving for the annual hunting trip.

Best wishes to everyone and hopefully we'll see you all at the next one.

I have been so very busy of late of things that come up. In April of this year my Reers Cousins and I went to Germany to find the location of our ancestry...which we did in ASBECK up near the Netherlands border. There was a Restaurant/Bar with our name on it. Had lunch there, of course another generation. Went to a neat Slovenier Shop when an older gentleman had an album with a picture of our Grandfather. A great day, then on to the cemetery where we found tombstones with the Reers name on it.

Our Grandfather, Charles G. Reers is buried in the Catholic Cemetery in Narrowsburg, New York.

I split from my cousins and flew to NYC for 3 days and then back to San Diego, CA. A great trip...and nice experience.

I've lived in Virginia since the late 60's, married here and was married for 33 years. My husband passed away 15 years ago and since then I have kept busy. In addition to working part time in support of the Marine Corp, I volunteer with Shadow Cat Advocates a Trap, Neuter and Return (TNR) Organization that attempts to control the local feral cat population. I also belong to Soroptimist International of Manassas, VA. an organization working to improve the lives of women and girls through programs leading to social and economic empowerment. We work a lot with the local domestic violence shelter.

**Our Next Generations:**

I have a four legged furry Dog and 4 four legged furry cats.

I enjoy camping (Mostly at Bluegrass Festivals) and have met lots of interesting friends. I also have a retail space at an antique mall and keep busy buying, fixing up and selling small vintage furniture and collectibles.

Some of my fondest memories of Narrowsburg include cheering at the basketball games, going to the Oasis at lunch time to have a chicken salad sandwich and sometimes sneak a cigarette, the senior class trip, and the school dances. It's great to see that the great old school building is coming to life again after years of being empty.

**We have settled-come back to-a home in Chesterfield, MO. outside of St. Louis. I’m still a baseball fan, now the Cardinals and a depressed football fan as our Rams went back to L.A. Two Keeshond dogs (and their fur) keep me busy as does gardening, discussion groups, symphony and opera attendance. As an additional note, I had a heart transplant 4 years ago and am doing very well with that.**
